

# Fury Burnishers

No stop signs, no speed limits with these lightning-fast burnishers.

Pacific's cord-electric Fury burnishers are equipped with 1.5 HP motors, carbon brush wear indicator lights, carbon brushes rated for 3,000 hours of operation, flexible pad drivers, sturdy steel handles for stability and control and ergonomic squeeze grips to minimize wrist fatigue associated with twist-style actuators. Pacific's value model, the Fury 1500 P burnisher comes with a molded ABS base

and Pacific's 1500 DCP and 2000 DCP burnishers are constructed of durable cast aluminum with a powder epoxy finish able to withstand years of use. These machines are built to take on the tough tasks yet put a brilliant shine on the floor after every use.

# Product Features & Benefits

**Brush Wear Indicator Light**  
Pacific's brush wear indicator light takes the guess work out of when carbon brushes need to be changed.

**Non-marking Bumper**  
Pacific's non-marking burnisher bumpers are permanently attached by stainless banding and guides to ensure that the bumper does not come off or become dislodged.

**Heavy Duty Housing/ Strain Relief**  
Durable cast aluminum switch housing and metal switch levers are designed for easy access and years of rugged use. The heavy duty strain relief also ensures trouble free operation.

**Thick Bases**  
The 1500 DCP and 2000 DCP have .3995" thick cast aluminum bases built for use year after year. The 1500 P ABS molding is .2980" thick and is perfect for contractors on the go.

**Industrial Strength Bearings**  
All units carry dual, industrial grade, 4 point flange, self-aligning bearings. This system offers up to 5 times the service life of conventional roller bearings.

**Heavy Duty Yolk**  
Pacific burnishers have sturdy, durable cast aluminum yolks to withstand the rigors demanded of your floor care equipment.
